cerámica

Bianchi es una serie que encarna la pureza y la serenidad del color blanco en su forma más esencial. Su nombre, que en italiano significa "blanco", captura la esencia de esta colección: una oda al color que amplía los espacios y los llena de luz y calma. Bianchi convierte los interiores en lienzos luminosos, donde la simplicidad del blanco se despliega en toda su belleza.

Bianchi is a series that embodies the purity and serenity of white in its most essential form. The name, meaning "white" in Italian, captures the essence of this collection: an ode to the color that expands spaces and fills them with light and calm. Bianchi turns interiors into luminous canvases, where the simplicity of white unfolds in all its beauty.

Borga es una serie de piedra inspirada en la nobleza de la piedra Borja, un material conocido por su belleza natural. Esta serie captura la esencia robusta de la piedra, evocando la fuerza de los paisajes de donde proviene, y añadiendo una textura rica que refleja la autenticidad de la naturaleza en su estado más puro.

Borga is a stone series inspired by the noble Borja stone, a material known for its natural beauty. This series captures the robust essence of the stone, evoking the strength of the landscapes it comes from, while adding a rich texture that reflects the authenticity of nature in its purest form.

cerâmica

Calcare es una serie inspirada en la piedra limestone, un material que ha dado forma a algunas de las arquitecturas más icónicas del mundo. Su nombre proviene del latín calx (cal), en referencia a su origen sedimentario, donde el paso del tiempo ha esculpido una textura sutil salpicada de pequeñas motas minerales que le otorgan profundidad y naturalidad.

Calcare is a series inspired by limestone, a material that has shaped some of the world's most iconic architectures. Its name comes from the Latin calx (lime), referring to its sedimentary origin, where time has sculpted a subtle texture speckled with tiny mineral flecks that add depth and natural elegance.

# Corten es un clásico de TAU que captura la esencia del metal en su estado más puro. Su acabado oxidado, distintivo y lleno de carácter, revela la belleza de lo industrial transformado en arte. Esta serie encarna la fuerza y la personalidad del metal, convirtiendo cada espacio en una declaración audaz.

Corten is a TAU classic that captures the essence of metal in its purest form. Its rusted finish, distinctive and full of character, reveals the beauty of industrial design turned into art. This series embodies the strength and personality of metal, turning every space into a bold statement.

Corten Wall es la reinterpretación de un clásico de TAU, llevando la esencia del metal oxidado a las paredes. Esta serie captura la misma fuerza y personalidad que su homóloga en porcelánico, convirtiendo cualquier superficie en un lienzo de arte industrial. Su acabado único, con texturas ricas y tonos cálidos, transforma las paredes en protagonistas que cuentan historias de durabilidad y carácter.

Corten Wall is the reinterpretation of a TAU classic, bringing the essence of oxidized metal to the walls. This series captures the same strength and personality as its porcelain counterpart, turning any surface into a canvas of industrial art. Its unique finish, with rich textures and warm tones, transforms walls into focal points that tell stories of durability and character.

Detroit es una serie cerámica inspirada en la fuerza honesta de la ciudad estadounidense que le da nombre. Interpreta el cemento con una paleta de colores tierra —arena, arcilla, óxido y carbón suave— para vestir los espacios con una calidez urbana y contenida. Su superficie revela delicadas motas y sombras difuminadas que aportan profundidad sin estridencias.

Detroit is a ceramic series inspired by the honest strength of the American city that gives it its name. It interprets cement with an earth-toned palette—sand, clay, rust, and soft charcoal—to dress spaces in a restrained, urban warmth. Its surface reveals delicate speckles and softened shadows that add depth without harshness.

Inspirado en la majestuosidad del mármol, el modelo Elite encarna la elegancia atemporal. Sus finas vetas recrean la sofisticación natural de la piedra, dando vida a un diseño refinado y distinguido. Cada veta parece una obra de arte esculpida por la naturaleza, creando una superficie que atrae la mirada con su belleza intrínseca.

Inspired by the majesty of marble, the elite model embodies the timeless elegance. Its fine veins recreate the natural sophistication of stone, giving life to a refined and distinguished design. Each vein looks like a work of art sculpted by nature, creating a surface that attracts the look with its intrinsic beauty.

# Emporio encarna la opulencia y la gracia que se encuentran en las grandes maravillas arquitectónicas y en el arte atemporal. Con un fondo blanco inmaculado acentuado por vetas marcadas en gris y dorado, este mármol evoca una sensación de armonía lujosa y elegancia refinada, recordando la grandeza de los antiguos imperios.

Emporio embodies the opulence and grace found in grand architectural wonders and timeless art. With a pristine white background accentuated by bold gray and golden veins, this marble evokes a sense of luxurious harmony and refined elegance, reminiscent of the grandeur of ancient empires.

# La serie Fidenza se inspira en los paisajes naturales, capturando la belleza y la serenidad de la piedra en su estado más puro. Con una superficie uniforme y una textura suave, Fidenza evoca la tranquilidad de los entornos naturales, aportando una sensación de calma y sofisticación a cualquier espacio.

The Fidenza series draws inspiration from natural landscapes, capturing the beauty and serenity of stone in its purest form. With a uniform surface and smooth texture, Fidenza evokes the tranquility of natural settings, bringing a sense of calm and sophistication to any space.

Integra personifica la belleza elemental de la piedra de una manera extraordinaria. Inspirado en la naturaleza, este modelo rinde homenaje a la continuidad suave y atemporal de las formaciones rocosas. Su diseño, con apariencia uniforme y tonos neutros, evoca una sensación de serenidad y autenticidad.

It integrates the elementary beauty of the stone of an extraordinary way. Inspired by nature, this model pays tribute to the soft and timeless continuity of rock formations. Its design, with uniform appearance and neutral tones, evokes a sense of serenity and authenticity.

Mythe es una serie que encarna la esencia robusta y decorativa de la pizarra, un material que transforma espacios con su fuerza y carácter inigualables. Inspirada en las texturas naturales de este elemento, Mythe destaca por su capacidad de revestir ambientes y, al mismo tiempo, convertirse en un punto focal que define el estilo.

Mythe is a series that embodies the robust and decorative essence of slate, a material that transforms spaces with its unmatched strength and character. Inspired by the natural textures of this element, Mythe stands out for its ability to not only cover surfaces but also become a focal point that defines style.

# Novastone es la expresión de una piedra renacida, una combinación de tradición y modernidad que evoca la fuerza de la naturaleza en su forma más pura. Inspirada en la idea de una "piedra nueva", esta serie se caracteriza por sus finas vetas blancas que trazan caminos delicados sobre una superficie que emana solidez y frescura.

Novastone is the expression of a stone reborn, a blend of tradition and modernity that evokes the strength of nature in its purest form. Inspired by the idea of a "new stone," this series is characterized by its fine white veins tracing delicate paths across a surface that exudes solidity and freshness.

Para la serie Petra nos hemos inspirado en el maravilloso enclave arqueológico de Jordania, donde las rocas han sido magistralmente esculpidas para crear imponentes edificios. Al igual que estas estructuras milenarias, nuestra colección Petra —cuyo nombre significa piedra en griego— destaca por un elegante acabado arenoso y terroso que recuerda el encanto natural del lugar.

For the Petra series, we drew inspiration from Jordan's magnificent archaeological site, where rock has been masterfully sculpted into imposing buildings. Like these millennia-old structures, our Petra collection—whose name means "stone" in Greek—stands out for its elegant sandy, earthy finish that recalls the place's natural charm.

Serenastone es un homenaje a la icónica Pietra Serena, una arenisca que ha dado forma a la arquitectura y escultura renacentista en Italia. Con su tono suave y su resistencia inigualable, Serenastone captura la esencia de esta piedra histórica, trayendo consigo la serenidad y la elegancia que han adornado las obras más emblemáticas del arte y la construcción.

Serenastone is an homage to the iconic Pietra Serena, a sandstone that has shaped Renaissance architecture and sculpture in Italy. With its soft tone and unmatched durability, Serenastone captures the essence of this historic stone, bringing with it the serenity and elegance that have graced some of the most iconic works of art and construction.

La serie Soapstone encuentra su inspiración en la rica textura y el aspecto natural de la piedra esteatita o piedra jabón, un material conocido por su suavidad y durabilidad. Con una paleta de colores variados y vetas sutiles, esta piedra captura la esencia de la autenticidad y la belleza natural, evocando paisajes serenos y atemporales.

The Soapstone series draws its inspiration from the rich texture and natural look of soapstone, a material known for its softness and durability. With a varied palette of colors and subtle veins, this stone captures the essence of authenticity and natural beauty, evoking serene and timeless landscapes.

# La serie Torano Statuario se inspira en la grandiosidad de las canteras italianas, donde se extraen los mármoles más icónicos. Con un fondo blanco puro y sutiles matices grises, Torano Statuario representa la esencia de la elegancia clásica y la sofisticación.

The Torano Statuario series draws inspiration from the grandeur of Italian quarries, where the most iconic marbles are sourced. With a pure white background and subtle gray undertones, Torano Statuario embodies the essence of classic elegance and sophistication.

# La serie Varenna encuentra su esencia en los paisajes tranquilos y etéreos del lago de Como, donde la naturaleza se fusiona con la elegancia discreta de las villas italianas. Con vetas difuminadas y un contraste suave, Varenna evoca una sensación de paz y equilibrio, ideal para crear espacios serenos y armoniosos.

The Varenna series finds its essence in the tranquil and ethereal landscapes of Lake Como, where nature blends with the understated elegance of Italian villas. With blurred veins and soft contrast, Varenna evokes a sense of peace and balance, ideal for creating serene and harmonious spaces.

# Recomendaciones
## Recomendations

Estimado cliente: le recomendamos que entregue una copia de esta información a los particulares a los que suministre material de la marca TAU Cerámica. Este pequeño esfuerzo se verá recompensado al evitarse posibles reclamaciones de sus clientes. Muchas gracias por su colaboración.

Dear customer, we recommend you give a copy of this information to the people you supply with tau cerámica materials. This will help avoid complaints from your customers. Many thanks for your cooperation.

ALMACENAMIENTO

1 Para garantizar las características de su acabado, el producto suministrado debe mantenerse en su embalaje original hasta el momento de la colocación.

2 Es conveniente evitar el contacto directo con sol y lluvia. Un embalaje deteriorado puede ocasionar algunos desperfectos en las piezas, como roturas, despuntados o manchas difíciles de eliminar.

3 Si el producto va a permanecer almacenado durante un largo período es conveniente hacerlo bajo cubierta.

WAREHOUSING

1 In order to guarantee the characteristics of the finish the product must be kept in its original packaging until the time of fixing.

2 Deterioration in packaging may result in imperfections in the product such as cracking, pitting and staining.

3 If the product is likely to be stored for a long period of time it should be suitably covered.

RECOMENDACIONES DE COLOCACIÓN

1. Aconsejamos la colocación de nuestro material cerámico por parte de personal cualificado, con experiencia demostrada y con posesión de las herramientas y útiles necesarios y adecuados para la colocación.

2. El soporte a revestir debe reunir condiciones adecuadas de rigidez, planeidad, limpieza e impermeabilidad y ser compatible químicamente con el material de agarre a utilizar.

3. En caso de reposición sobre material cerámico preexistente, es conveniente prever elementos que garanticen la adherencia del nuevo recubrimiento.

4. Deberán respetarse en todo caso las juntas estructurales previstas y plantear cuantas juntas de dilatación y perimetrales resulten necesarias y, en cualquier caso, las que resulten exigibles desde el punto de vista normativo.

5. Deberá utilizarse un material de agarre adecuado al tipo de cerámica a colocar. En el caso de Porcelánico, deberá emplearse un material de agarre adecuado a la baja porosidad de este producto. En cualquier caso, se utilizarán materiales de agarre y rejuntado con adecuada elasticidad y altas prestaciones técnicas, mecánicas y químicas.

RECOMMENDATIONS FOR LAYING

1. We recommend that our ceramic tiles should only be laid by qualified professionals with proven experience and in possession of the appropriate tools and equipment for the task.

2 . The surface to be tiled must be rigid, flat, clean and impermeable; it should also be chemically compatible with the adhesive material, mortar etc., to be used to lay the tiles.

3. If the new tiles are going to be laid on existing ceramic tiles, elements should be incorporated to ensure that the new covering bonds properly.

4. In every case, all planned structural joints must be taken into account. Include as many expansion and perimeter joints as necessary; in any event, such joints required by current norms and standards must be incorporated.

5. The type of adhesive used must be suitable for the type of ceramic tile to be laid. The low porosity of porcelain tile requires that the adhesive used must be suitable for this type of material. In all cases the adhesives and grouts used must be sufficiently elastic, and have high quality technical, mechanical and chemical specifications.

RECOMENDACIONES DE TRABADO

1. TAU recomienda no trabar a mitad de pieza los siguientes formatos: 30x60, 37,5x75, 30x120, 60x120 y 20x120.

2. En general, desaconsejamos la colocación trabada con un desplazamiento superior a 15 cm. En cualquier caso, el desplazamiento no debe ser superior al 25% de la longitud de la pieza.

RECOMMENDATIONS FOR LAYING PATTERNS

1. TAU recommends not laying half-piece brick bond patterns with the following formats: 30x60, 37,5x75, 30x120, 60x120 y 20x120.

2. In general, we do not recommend brick bond patterns with overlaps of more than 15 cm. In all cases, the overlap should be no more than 25% of the length of the piece.

RECOMENDACIONES DE LIMPIEZA.

1. Una vez concluida la tarea de rejuntado y tras la limpieza de éste, es importante respetar el tiempo de puesta en servicio del recubrimiento, es decir, no limpiar inmediatamente sino dejar secar la obra. Para la limpieza de puesta a punto del suelo cerámico aconsejamos esperar unos 5 días.

2. Se debe proteger el recubrimiento frente al agua y humedad en las primeras fases de maduración y endurecimiento de los materiales de agarre y rejuntado. Especialmente en exteriores y con riesgo de helada.

3. También es conveniente tomar medidas para evitar posibles agresiones mecánicas o químicas producidas por los trabajos posteriores de otros oficios o instalaciones con el fin de proteger la superficie de daños puntuales; por ello se recomienda cubrir el pavimento con cartón grueso o similar.

4. Para la limpieza final del recubrimiento se aconseja utilizar productos compatibles con la resistencia química de las piezas, así como evitar el uso de detergentes sólidos con partículas abrasivas o soluciones que contengan ácido fluorhídrio, pues este ácido ataca el esmalte y produce daños irreparables en la cerámica.

5. La cerámica proporciona un recubrimiento completamente funcional una vez superado el tiempo de maduración de los materiales y requiere muy poco mantenimiento, tan sólo la limpieza cotidiana con agua limpia a la que puede añadirse un detergente de base alcalina. No utilizar ni espátulas metálicas ni estropajos abrasivos para la limpieza del recubrimiento.

6. En caso de producirse manchas que no puedan ser totalmente eliminadas con un detergente convencional y que requieran la utilización de disolventes o limpiadores específicos, se recomienda consultar previamente la clase de resistencia química de la pieza.

7. Se aconseja no utilizar ceras, aceites o productos similares.

RECOMMENDATIONS FOR CLEANING

1. Once the tiles have been grouted and any excess grout cleaned off, it is important to wait the stipulated time before using the tiled surface; in other words, any cleaning should wait until the tiled surface is completely dry. We recommend waiting 5 days before cleaning in readiness for full use.

2. The newly tiled surface must be protected from water and damp while the adhesive and grouting materials are maturing and hardening. This is particularly important in outside spaces and areas where there is a risk of freezing.

3. Measures should also be taken to protect the newly tiled surface against mechanical or chemical damage resulting from subsequent work by other professionals or later installations. Damage can be prevented by covering the floor tiles with thick cardboard or similar material.

4. For the final cleaning of the tiled surface, the products used should be compatible with the chemical resistance of the tiles. Avoid solid detergents with abrasive particles and solutions containing hydrofluoric acid, which attacks the glaze and causes irreversible damage to the ceramic tile.

5. Ceramic products provide a completely functional, low-maintenance surface once the period has passed during which the adhesives used to lay the tiles have matured or hardened. Daily wiping over with clean water and a little alkaline-based detergent is sufficient. Do not use metal scrapers or abrasive scrubbers to clean the tiles.

6. In the case of stains that cannot be removed completely with regular detergents and that require specific solvents or cleaning products, the tile's chemical resistance properties should be consulted beforehand.

7. The use of waxes, oils or similar products is not recommended.

RECOMENDACIONES PARA LA LIMPIEZA DE DECORADOS Y PIEZAS ESPECIALES.

1. Debido a las características de los metales utilizados en la confección de estos productos, es suficiente utilizar una bayeta húmeda y jabón líquido neutro. Si la pieza llevara protección, no quitarla hasta que el producto esté colocado y limpio.

1. Due to the characteristics of the metals used in the production of these pieces, only a damp cloth and neutral liquid soap are required to clean them. Any protective material should be left on the piece until it is fitted and clean.

El grupo realiza una fuerte inversión en el compromiso con el medio ambiente. Recuperamos 2.700.000 litros de agua diarios, con vertido cero de aguas cerámicas residuales y 7.500 toneladas de polvo atomizado.

Nuestras plantas trituran 190.000 kg de azulejo descartado para la producción, que se integran después del reciclado en la fórmula de nuevos productos, con lo que se evita la contaminación y las emisiones de CO2.

Reconducimos el aire caliente de los hornos cerámicos, en definitiva, es nuestro compromiso con el medio ambiente y nuestras chimeneas solo emiten vapor de agua.

The group invests heavily in its commitment to the environment. We recover 2,700,000 liters of water daily, with zero discharge of ceramic wastewater and 7,500 tons of atomized dust.

Our plants grind 190,000 kg of tile discarded for production, which are integrated after recycling into the formula of new products, thus avoiding pollution and CO2 emissions.

We redirected the hot air from the ceramic furnaces, in short, it is our commitment to the environment and our fireplaces only emit steam.

# Desarrollo sostenible
## Sustainable development

TAU cerámica cuenta con un sistema de gestión ambiental para identificar y minimizar el impacto de sus operaciones sobre las emisiones atmosféricas, aguas residuales, residuos y contaminación acústica. Sistema Integrado de Gestión (SIG), diseñado por Ecoembes y encaminado a la recogida selectiva y recuperación de residuos de envases para su tratado, reciclado y valoración.

La compañía cuenta con Declaraciones Ambientales de Producto (DAP) para todas las familias de producto que comercializa. Una declaración concedida por Aenor en 2014 y ampliada en 2015 que destaca productos respetuosos con el medio amibente.

TAU ceramics has an environmental management system to identify and minimize the impact of its operations on air emissions, wastewater, waste and noise pollution.  Integrated Management System (SIG), designed by Ecoembes and aimed at the selective collection and recovery of packaging waste for treatment, recycling and assessment.

The company has Environmental Product Declarations (EPDs) for all the product families it markets. A declaration granted by Aenor in 2014 and extended in 2015 that highlights environmentally friendly products.
