APE

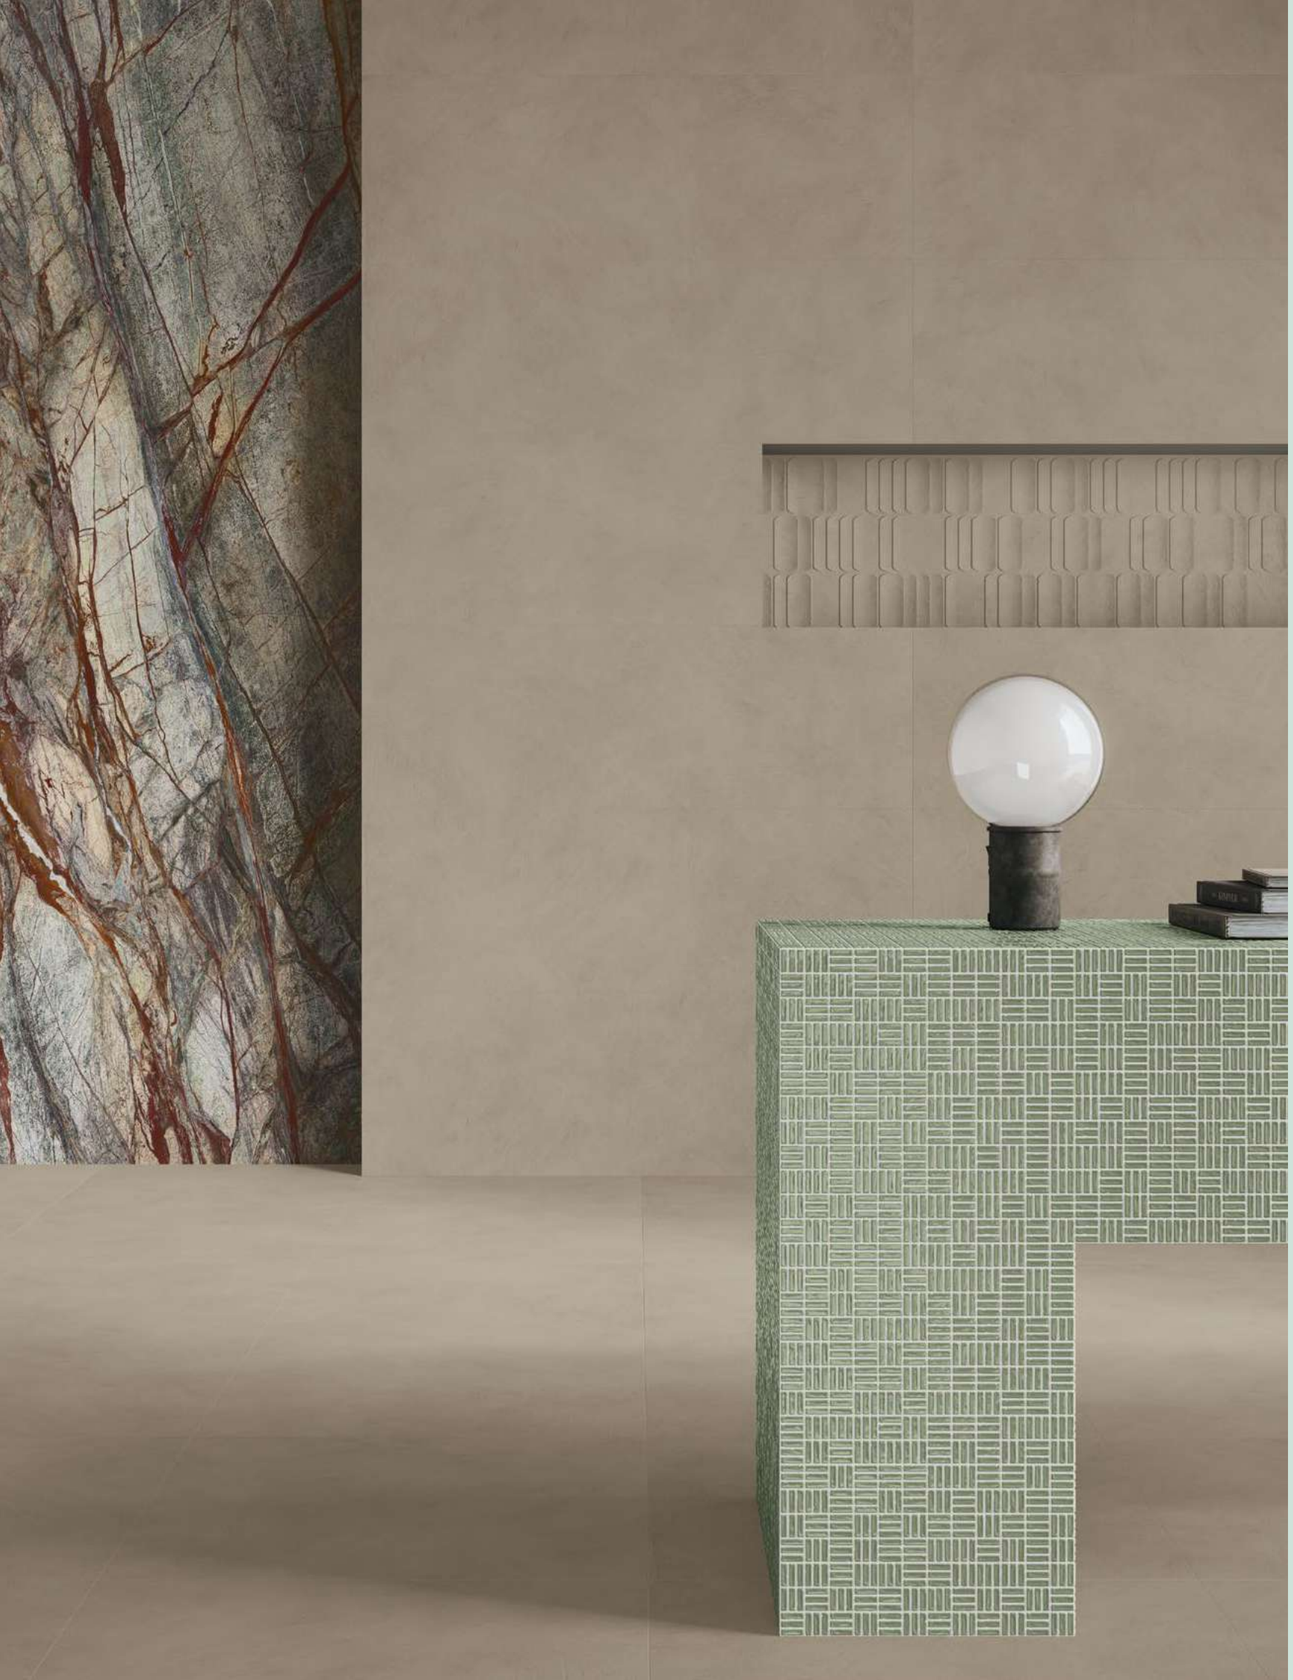
best *for* you



APE is the group's flagship brand — the first, and the one with the longest track record. It is also a brand conceived to live naturally alongside the designs of our other brands.

From this vision, The Perfect Mix was born, a creative concept that allows the group's different collections and products to interact seamlessly, creating surprising results.

APE es la marca insignia del grupo, la primera y la de mayor trayectoria en el mercado. Pero también está concebida para convivir de forma natural con los diseños de nuestras otras marcas.

Así nace The Perfect Mix, el concepto creativo bajo el cual las distintas colecciones y productos del grupo se relacionan entre sí de manera ágil, generando resultados sorprendentes.

Versatility, order and a broad vision of design

Adaptarse no es
cambiar de esencia,
sino saber cómo
responder a cada reto

APE Best for you is born from the ability to adapt. From understanding that every project is different, that every space has its own language, and every need calls for a precise response. This is why its proposal is built on versatility: collections, formats, and finishes designed to integrate naturally into a wide range of contexts, without ever losing coherence or identity.

APE Best for you nace de la capacidad de adaptarse. De entender que cada proyecto es distinto, que cada espacio tiene su propio lenguaje y que cada necesidad exige una respuesta precisa. Por eso, su propuesta se construye desde la versatilidad: colecciones, formatos y acabados pensados para integrarse con naturalidad en contextos diversos, sin perder coherencia ni identidad.

Real solutions for today’s projects

Soluciones reales para proyectos contemporáneos

Innovation at APE Best for you is a constant, applied process. It is not understood as a one-off gesture, but as a continuous evolution that enhances the way ceramic is designed, produced and used. Every technical advancement, every new format or finish is developed with a clear objective: to deliver real solutions for contemporary projects.

La innovación en APE Best for you es un proceso constante y aplicado. No se entiende como un gesto puntual, sino como una evolución continua que mejora la forma de diseñar, producir y utilizar la cerámica. Cada avance técnico, cada nuevo formato o acabado nace con un objetivo claro: aportar soluciones reales a los proyectos contemporáneos.

APE Grupo has its own in-house design department in Spain and Italy, allowing us to respond to the specific trends of each market and develop tailor-made products.

Through dedicated coolhunting work — supported by regular attendance and participation in leading international fairs such as Salone del Mobile in Milan, Maison&Objet in Paris, London Design Festival in London, Casa Decor in Madrid and Cersaie in Bologna, among others — we identify the most relevant trends currently shaping interior design and architecture.

APE Grupo cuenta con su propio departamento de diseño interno en España e Italia, lo que nos permite adaptarnos a las tendencias de cada mercado y desarrollar productos a medida.

Gracias a una labor previa de coolhunting, basada en la asistencia y participación en ferias de referencia como el Salone del Mobile de Milán, Maison&Objet de París, London Design Festival de Londres, Casa Decor de Madrid o Cersaie de Bolonia, entre otras, identificamos las líneas más relevantes que marcan actualmente el rumbo del interiorismo y la arquitectura.

Architectural and conceptual

Arquitectónico y conceptual

Inspired by the strength and urban character of cement, these collections are conceived as a dialogue with architecture. Honest, continuous-looking surfaces with rich material depth, delivering visual coherence and a quiet, understated elegance to spaces.

Inspiradas en la fuerza y el carácter urbano del cemento, estas colecciones se conciben como un diálogo con la arquitectura. Superficies honestas, de apariencia continua y profundidad matérica, que aportan coherencia visual y una elegancia silenciosa a los espacios.

Lenguaje urbano

Ceramics take on a contemporary metallic look. Careful finishes, rusted, satin or polished effects, and a modern aesthetic define collections designed for advanced design projects and spaces with their own identity.

La cerámica adopta un lenguaje metálico contemporáneo. Acabados cuidados, efectos oxidados, satinados o pulidos y una estética actual definen colecciones pensadas para proyectos de diseño avanzado y espacios con identidad propia.
