TAU cerámica

En la serie Altamura, encontramos la inspiración en los paisajes urbanos y las estructuras contemporáneas que definen las ciudades modernas. Con una base grisácea y vetas que aportan dinamismo, este mármol captura la esencia de la elegancia urbana y la sofisticación industrial, evocando la atmósfera de las metrópolis vanguardistas.

The Altamura series draws inspiration from urban landscapes and contemporary structures that define modern cities. With a grayish base and dynamic veins, this marble captures the essence of urban elegance and industrial sophistication, evoking the atmosphere of avant-garde metropolises.

La serie Avorio nos transporta a los elegantes salones y galerías de la época clásica, donde el mármol era símbolo de lujo y distinción. Este mármol, con su tono marfil suave y vetas delicadas, captura la esencia de la sofisticación y la elegancia atemporal, evocando la serenidad y el esplendor de los interiores clásicos.

The Avorio series transports us to the elegant halls and galleries of the classical era, where marble was a symbol of luxury and distinction. This marble, with its soft ivory tone and delicate veins, captures the essence of sophistication and timeless elegance, evoking the serenity and splendor of classical interiors.

La serie Baranello toma su nombre de un pintoresco pueblo italiano, evocando la tradición y la elegancia de los mármoles más icónicos. Con su fondo blanco puro y vetas grisáceas y doradas, Baranello es la esencia del lujo clásico.

The Baranello series draws its name from a picturesque Italian village, evoking the tradition and elegance of the most iconic marbles. With its pure white background and gray and golden veins, Baranello embodies the essence of classic luxury.

Bianchi es una serie que encarna la pureza y la serenidad del color blanco en su forma más esencial. Su nombre, que en italiano significa "blanco", captura la esencia de esta colección: una oda al color que amplía los espacios y los llena de luz y calma. Bianchi convierte los interiores en lienzos luminosos, donde la simplicidad del blanco se despliega en toda su belleza.

Bianchi is a series that embodies the purity and serenity of white in its most essential form. The name, meaning "white" in Italian, captures the essence of this collection: an ode to the color that expands spaces and fills them with light and calm. Bianchi turns interiors into luminous canvases, where the simplicity of white unfolds in all its beauty.

Breccia toma su nombre del italiano y describe una de las creaciones más singulares de la geología: una roca formada por fragmentos de otras rocas que, con el paso del tiempo, vuelven a unirse. Lo que podría parecer una ruptura se convierte así en el comienzo de algo nuevo, sólido y sorprendentemente bello

Breccia takes its name from the Italian word used to describe one of geology's most distinctive creations: a rock made from fragments of older rocks that, over time, become bound together again. What might appear to be a fracture becomes the beginning of something new, solid and unexpectedly beautiful

Brooklyn se inspira en la vibrante esencia del barrio homónimo en Nueva York, reflejando su estilo industrial y vanguardista

Brooklyn is inspired by the vibrant essence of the borough of the same name in New York, reflecting its industrial and avant-garde style. With its metallic finish and flashes of light that evoke polished metal, this collection captures the energy and dynamism of Brooklyn.

Inspirado en la belleza del Coliseo Romano, nuestro modelo Colosseo representa la elegancia y majestuosidad de una de las estructuras más importantes de la humanidad. Sus líneas fluidas y su diseño atemporal capturan la esencia de la antigua Roma, mientras que la tecnología de vanguardia que lo impulsa representa la convergencia entre el pasado y el futuro.

Inspired by the beauty of the Roman Colosseum, our Colosseo model represents the elegance and majesty of one of the most important structures of humanity. Its fluid lines and its timeless design capture the essence of ancient Rome, while the avant-garde technology that drives it represents the convergence between the past and the future.

Corten es un clásico de TAU que captura la esencia del metal en su estado más puro. Su acabado oxidado, distintivo y lleno de carácter, revela la belleza de lo industrial transformado en arte. Esta serie encarna la fuerza y la personalidad del metal, convirtiendo cada espacio en una declaración audaz.

Corten is a TAU classic that captures the essence of metal in its purest form. Its rusted finish, distinctive and full of character, reveals the beauty of industrial design turned into art. This series embodies the strength and personality of metal, turning every space into a bold statement.

La serie Crotone nos transporta a los paisajes rústicos del sur de Italia, donde los tonos tierra dominan el horizonte y la naturaleza muestra su belleza más auténtica. Este mármol, con una paleta de colores terrosos y cálidos, captura la esencia de la tierra en su estado más puro y evocador, reflejando la serenidad y la riqueza de los campos mediterráneos.

The Crotone series transports us to the rustic landscapes of southern Italy, where earthy tones dominate the horizon and nature reveals its most authentic beauty. This marble, with a palette of warm, earthy colors, captures the essence of the earth in its purest and most evocative state, reflecting the serenity and richness of Mediterranean fields.

TAU
cerâmica

Inspirado en la majestuosidad del mármol, el modelo Elite encarna la elegancia atemporal. Sus finas vetas recrean la sofisticación natural de la piedra, dando vida a un diseño refinado y distinguido. Cada veta parece una obra de arte esculpida por la naturaleza, creando una superficie que atrae la mirada con su belleza intrínseca.

Inspired by the majesty of marble, the elite model embodies the timeless elegance. Its fine veins recreate the natural sophistication of stone, giving life to a refined and distinguished design. Each vein looks like a work of art sculpted by nature, creating a surface that attracts the look with its intrinsic beauty.

cerâmica

Emporio encarna la opulencia y la gracia que se encuentran en las grandes maravillas arquitectónicas y en el arte atemporal. Con un fondo blanco inmaculado acentuado por vetas marcadas en gris y dorado, este mármol evoca una sensación de armonía lujosa y elegancia refinada, recordando la grandeza de los antiguos imperios.

Emporio embodies the opulence and grace found in grand architectural wonders and timeless art. With a pristine white background accentuated by bold gray and golden veins, this marble evokes a sense of luxurious harmony and refined elegance, reminiscent of the grandeur of ancient empires.

La serie Fidenza se inspira en los paisajes naturales, capturando la belleza y la serenidad de la piedra en su estado más puro. Con una superficie uniforme y una textura suave, Fidenza evoca la tranquilidad de los entornos naturales, aportando una sensación de calma y sofisticación a cualquier espacio.

The Fidenza series draws inspiration from natural landscapes, capturing the beauty and serenity of stone in its purest form. With a uniform surface and smooth texture, Fidenza evokes the tranquility of natural settings, bringing a sense of calm and sophistication to any space.

Integra personifica la belleza elemental de la piedra de una manera extraordinaria. Inspirado en la naturaleza, este modelo rinde homenaje a la continuidad suave y atemporal de las formaciones rocosas. Su diseño, con apariencia uniforme y tonos neutros, evoca una sensación de serenidad y autenticidad.

It integrates the elementary beauty of the stone of an extraordinary way. Inspired by nature, this model pays tribute to the soft and timeless continuity of rock formations. Its design, with uniform appearance and neutral tones, evokes a sense of serenity and authenticity.

La serie Legend nos transporta a los antiguos terrenos de civilizaciones pasadas, donde la tierra y la piedra se fusionan para contar historias de grandeza y permanencia. Este mármol, con una base terrosa y vetas doradas, captura la esencia de la naturaleza en su forma más robusta y duradera, evocando la belleza atemporal de los materiales que han resistido el paso del tiempo.

The Legend series transports us to the ancient lands of past civilizations, where earth and stone merge to tell stories of grandeur and permanence. This marble, with a earthy base and golden veins, captures the essence of nature in its most robust and enduring form, evoking the timeless beauty of materials that have withstood the test of time.

Lithos nace de una idea simple: la piedra como testigo. Antes de las ciudades, los idiomas o los mitos, ya existían las rocas, acumulando tiempo, presión y cambio. La palabra Lithos viene del griego antiguo λίθος, que significa piedra: algo sólido, real y duradero.

Lithos is born from a simple idea: stone as a witness. Before cities, languages, or myths, rocks already existed, accumulating time, pressure, and change. The word Lithos comes from the ancient Greek λίθος, meaning stone: something solid, real, and enduring.

Oasis es una serie que redefine la belleza del mármol blanco, convirtiéndolo en el centro de todas las miradas. Su diseño, de gran personalidad, equilibra la pureza del fondo claro con una riqueza de detalles que le otorgan profundidad y dinamismo. Más que un simple material, Oasis se transforma en un elemento decorativo que eleva cualquier espacio con su presencia sofisticada.

Oasis is a series that redefines the beauty of white marble, making it the focal point of any space. Its design, full of personality, balances the purity of a bright background with intricate details that add depth and dynamism. More than just a material, Oasis becomes a decorative element that enhances any setting with its sophisticated presence.

Portloren es una serie de mármol que combina la profundidad del negro con la delicadeza de finas vetas blancas y doradas, creando un diseño que exuda lujo y sofisticación. Inspirada en la elegancia clásica de los mármoles más refinados, Portloren captura la esencia del lujo moderno, donde cada detalle es cuidadosamente trazado para destacar en cualquier espacio.

Portloren is a marble series that combines the depth of black with the delicacy of fine white and gold veins, creating a design that exudes luxury and sophistication. Inspired by the classic elegance of the most refined marbles, Portloren captures the essence of modern luxury, where every detail is carefully crafted to stand out in any space.

Roadstone se inspira en los antiguos caminos de piedra de los paisajes montañosos de Europa. Con tonos sobrios y texturas que evocan la solidez de la roca, aporta una fuerza auténtica a cualquier espacio. Es la combinación perfecta entre lo rústico y lo moderno, diseñada para perdurar.

Roadstone draws inspiration from ancient stone paths in Europe's mountainous landscapes. With sober tones and textures that evoke rock's solidity, it brings authentic strength to any space. It's the perfect blend of rustic and modern, designed to endure.

Route es una serie que toma su nombre de la idea de un viaje, una ruta que invita a disfrutar del camino tanto como del destino. Cada línea trazada en esta serie evoca la sensación de seguir un recorrido, donde lo importante no es solo llegar, sino deleitarse en cada paso, en cada textura que acompaña el trayecto.

Route is a series named after the concept of a journey, a route that invites you to enjoy the path as much as the destination. Each line drawn in this series evokes the feeling of following a course, where the importance lies not just in arriving, but in savoring each step, each texture that accompanies the journey.

La serie Soapstone encuentra su inspiración en la rica textura y el aspecto natural de la piedra esteatita o piedra jabón, un material conocido por su suavidad y durabilidad. Con una paleta de colores variados y vetas sutiles, esta piedra captura la esencia de la autenticidad y la belleza natural, evocando paisajes serenos y atemporales.

The Soapstone series draws its inspiration from the rich texture and natural look of soapstone, a material known for its softness and durability. With a varied palette of colors and subtle veins, this stone captures the essence of authenticity and natural beauty, evoking serene and timeless landscapes.

La serie Soapstone encuentra su inspiración en la rica textura y el aspecto natural de la piedra esteatita o piedra jabón, un material conocido por su suavidad y durabilidad. Con una paleta de colores variados y vetas sutiles, esta piedra captura la esencia de la autenticidad y la belleza natural, evocando paisajes serenos y atemporales.

The Soapstone series draws its inspiration from the rich texture and natural look of soapstone, a material known for its softness and durability. With a varied palette of colors and subtle veins, this stone captures the essence of authenticity and natural beauty, evoking serene and timeless landscapes.

Los atardeceres en el mar, las luces de sus calles y la elegancia de sus paisajes fueron los elementos que nos inspiraron para crear Sorrento. Nuestro particular homenaje a un lugar que nos deja cautivados. El modelo Sorrento se traduce en un mármol blanco con espesas vetas grisáceas capaces de llenar cualquier espacio.

The sunsets at sea, the lights of its streets and the elegance of their landscapes were the elements that inspired us to create sorrento. Our particular tribute to a place that leaves us captivated. The sorrento model translates into a white marble with thick gray veins capable of filling any space.

Stale rinde homenaje a la majestuosidad de las piedras. Inspirado en la naturaleza misma, cada pieza de Stale evoca la serenidad y resistencia de las rocas milenarias, llevando esa esencia a tus espacios más preciados. Su diseño sofisticado y sus sutiles granos te transportarán a paisajes atemporales, donde la fuerza y la elegancia convergen en perfecta armonía.

Stale pays tribute to the majesty of the stones. Inspired by nature itself, each piece of Stale evokes the serenity and resistance of the millenary rocks, taking that essence to your most precious spaces. Its sophisticated design and subtle grains will transport you to timeless landscapes, where strength and elegance converge in perfect harmony.

cerâmica

Terracina es una serie que nos transporta a los orígenes de la cerámica, inspirada en la nobleza del barro y la arcilla que han dado forma a la tradición a lo largo de los siglos. Su nombre evoca la conexión profunda con la tierra, recordando las antiguas técnicas artesanales que transformaron estos materiales en piezas duraderas y llenas de vida.

Terracina is a series that takes us back to the origins of ceramics, inspired by the noble qualities of clay and earth that have shaped tradition over centuries. Its name evokes a deep connection with the land, recalling the ancient craftsmanship that transformed these materials into enduring, vibrant pieces.

La serie Torano Statuario se inspira en la grandiosidad de las canteras italianas, donde se extraen los mármoles más icónicos. Con un fondo blanco puro y sutiles matices grises, Torano Statuario representa la esencia de la elegancia clásica y la sofisticación.

The Torano Statuario series draws inspiration from the grandeur of Italian quarries, where the most iconic marbles are sourced. With a pure white background and subtle gray undertones, Torano Statuario embodies the essence of classic elegance and sophistication.

Nevada se concibe como resultado de un juego geométrico de leves pliegues y sutiles planos inclinados.

Nevada is conceived as a result of a geometric game of slight folds and subtle inclined flat.

La serie Varenna encuentra su esencia en los paisajes tranquilos y etéreos del lago de Como, donde la naturaleza se fusiona con la elegancia discreta de las villas italianas. Con vetas difuminadas y un contraste suave, Varenna evoca una sensación de paz y equilibrio, ideal para crear espacios serenos y armoniosos.

The Varenna series finds its essence in the tranquil and ethereal landscapes of Lake Como, where nature blends with the understated elegance of Italian villas. With blurred veins and soft contrast, Varenna evokes a sense of peace and balance, ideal for creating serene and harmonious spaces.

La serie Varese se inspira en la majestuosidad y el dinamismo de los cielos plasmados en los cuadros renacentistas. Este mármol, con su diseño lleno de movimiento y vitalidad, evoca la sensación de estar observando un cielo en constante cambio, con nubes que parecen cobrar vida y desplazarse suavemente.

The Varese series draws inspiration from the majesty and dynamism of skies depicted in Renaissance paintings. This marble, with its design full of movement and vitality, evokes the feeling of observing a constantly changing sky, with clouds that seem to come to life and drift gently.

Watery es una serie que fluye con la gracia de una corriente suave, un homenaje al delicado movimiento del agua que se refleja en su acabado acuoso. Sus colores cálidos y empolvados envuelven los espacios en una atmósfera de serenidad, como un atardecer que tiñe el cielo con su luz suave y envolvente.

Watery is a series that flows with the grace of a gentle stream, a tribute to the delicate movement of water reflected in its aqueous finish. Its warm, powdery colors envelop spaces in an atmosphere of serenity, like a sunset that bathes the sky in soft, embracing light.

Recomendaciones
Recomendations

Estimado cliente: le recomendamos que entregue una copia de esta información a los particulares a los que suministre material de la marca TAU Cerámica. Este pequeño esfuerzo se verá recompensado al evitarse posibles reclamaciones de sus clientes. Muchas gracias por su colaboración.

Dear customer, we recommend you give a copy of this information to the people you supply with tau cerámica materials. This will help avoid complaints from your customers. Many thanks for your cooperation.

ALMACENAMIENTO

1 Para garantizar las características de su acabado, el producto suministrado debe mantenerse en su embalaje original hasta el momento de la colocación.

2 Es conveniente evitar el contacto directo con sol y lluvia. Un embalaje deteriorado puede ocasionar algunos desperfectos en las piezas, como roturas, despuntados o manchas difíciles de eliminar.

3 Si el producto va a permanecer almacenado durante un largo período es conveniente hacerlo bajo cubierta.

WAREHOUSING

1 In order to guarantee the characteristics of the finish the product must be kept in its original packaging until the time of fixing.

2 Deterioration in packaging may result in imperfections in the product such as cracking, pitting and staining.

3 If the product is likely to be stored for a long period of time it should be suitably covered.

RECOMENDACIONES DE COLOCACIÓN

1. Aconsejamos la colocación de nuestro material cerámico por parte de personal cualificado, con experiencia demostrada y con posesión de las herramientas y útiles necesarios y adecuados para la colocación.

2. El soporte a revestir debe reunir condiciones adecuadas de rigidez, planeidad, limpieza e impermeabilidad y ser compatible químicamente con el material de agarre a utilizar.

3. En caso de reposición sobre material cerámico preexistente, es conveniente prever elementos que garanticen la adherencia del nuevo recubrimiento.

4. Deberán respetarse en todo caso las juntas estructurales previstas y plantear cuantas juntas de dilatación y perimetrales resulten necesarias y, en cualquier caso, las que resulten exigibles desde el punto de vista normativo.

5. Deberá utilizarse un material de agarre adecuado al tipo de cerámica a colocar. En el caso de Porcelánico, deberá emplearse un material de agarre adecuado a la baja porosidad de este producto. En cualquier caso, se utilizarán materiales de agarre y rejuntado con adecuada elasticidad y altas prestaciones técnicas, mecánicas y químicas.

RECOMMENDATIONS FOR LAYING

1. We recommend that our ceramic tiles should only be laid by qualified professionals with proven experience and in possession of the appropriate tools and equipment for the task.

2 . The surface to be tiled must be rigid, flat, clean and impermeable; it should also be chemically compatible with the adhesive material, mortar etc., to be used to lay the tiles.

3. If the new tiles are going to be laid on existing ceramic tiles, elements should be incorporated to ensure that the new covering bonds properly.

4. In every case, all planned structural joints must be taken into account. Include as many expansion and perimeter joints as necessary; in any event, such joints required by current norms and standards must be incorporated.

5. The type of adhesive used must be suitable for the type of ceramic tile to be laid. The low porosity of porcelain tile requires that the adhesive used must be suitable for this type of material. In all cases the adhesives and grouts used must be sufficiently elastic, and have high quality technical, mechanical and chemical specifications.

RECOMENDACIONES DE TRABADO

1. TAU recomienda no trabar a mitad de pieza los siguientes formatos: 30x60, 37,5x75, 30x120, 60x120 y 20x120.

2. En general, desaconsejamos la colocación trabada con un desplazamiento superior a 15 cm. En cualquier caso, el desplazamiento no debe ser superior al 25% de la longitud de la pieza.

RECOMMENDATIONS FOR LAYING PATTERNS

1. TAU recommends not laying half-piece brick bond patterns with the following formats: 30x60, 37,5x75, 30x120, 60x120 y 20x120.

2. In general, we do not recommend brick bond patterns with overlaps of more than 15 cm. In all cases, the overlap should be no more than 25% of the length of the piece.

RECOMENDACIONES DE LIMPIEZA.

1. Una vez concluida la tarea de rejuntado y tras la limpieza de éste, es importante respetar el tiempo de puesta en servicio del recubrimiento, es decir, no limpiar inmediatamente sino dejar secar la obra. Para la limpieza de puesta a punto del suelo cerámico aconsejamos esperar unos 5 días.

2. Se debe proteger el recubrimiento frente al agua y humedad en las primeras fases de maduración y endurecimiento de los materiales de agarre y rejuntado. Especialmente en exteriores y con riesgo de helada.

3. También es conveniente tomar medidas para evitar posibles agresiones mecánicas o químicas producidas por los trabajos posteriores de otros oficios o instalaciones con el fin de proteger la superficie de daños puntuales; por ello se recomienda cubrir el pavimento con cartón grueso o similar.

4. Para la limpieza final del recubrimiento se aconseja utilizar productos compatibles con la resistencia química de las piezas, así como evitar el uso de detergentes sólidos con partículas abrasivas o soluciones que contengan ácido fluorhídrio, pues este ácido ataca el esmalte y produce daños irreparables en la cerámica.

5. La cerámica proporciona un recubrimiento completamente funcional una vez superado el tiempo de maduración de los materiales y requiere muy poco mantenimiento, tan sólo la limpieza cotidiana con agua limpia a la que puede añadirse un detergente de base alcalina. No utilizar ni espátulas metálicas ni estropajos abrasivos para la limpieza del recubrimiento.

6. En caso de producirse manchas que no puedan ser totalmente eliminadas con un detergente convencional y que requieran la utilización de disolventes o limpiadores específicos, se recomienda consultar previamente la clase de resistencia química de la pieza.

7. Se aconseja no utilizar ceras, aceites o productos similares.

RECOMMENDATIONS FOR CLEANING

1. Once the tiles have been grouted and any excess grout cleaned off, it is important to wait the stipulated time before using the tiled surface; in other words, any cleaning should wait until the tiled surface is completely dry. We recommend waiting 5 days before cleaning in readiness for full use.

2. The newly tiled surface must be protected from water and damp while the adhesive and grouting materials are maturing and hardening. This is particularly important in outside spaces and areas where there is a risk of freezing.

3. Measures should also be taken to protect the newly tiled surface against mechanical or chemical damage resulting from subsequent work by other professionals or later installations. Damage can be prevented by covering the floor tiles with thick cardboard or similar material.

4. For the final cleaning of the tiled surface, the products used should be compatible with the chemical resistance of the tiles. Avoid solid detergents with abrasive particles and solutions containing hydrofluoric acid, which attacks the glaze and causes irreversible damage to the ceramic tile.

5. Ceramic products provide a completely functional, low-maintenance surface once the period has passed during which the adhesives used to lay the tiles have matured or hardened. Daily wiping over with clean water and a little alkaline-based detergent is sufficient. Do not use metal scrapers or abrasive scrubbers to clean the tiles.

6. In the case of stains that cannot be removed completely with regular detergents and that require specific solvents or cleaning products, the tile's chemical resistance properties should be consulted beforehand.

7. The use of waxes, oils or similar products is not recommended.

RECOMENDACIONES PARA LA LIMPIEZA DE DECORADOS Y PIEZAS ESPECIALES.

1. Debido a las características de los metales utilizados en la confección de estos productos, es suficiente utilizar una bayeta húmeda y jabón líquido neutro. Si la pieza llevara protección, no quitarla hasta que el producto esté colocado y limpio.

1. Due to the characteristics of the metals used in the production of these pieces, only a damp cloth and neutral liquid soap are required to clean them. Any protective material should be left on the piece until it is fitted and clean.

El grupo realiza una fuerte inversión en el compromiso con el medio ambiente. Recuperamos 2.700.000 litros de agua diarios, con vertido cero de aguas cerámicas residuales y 7.500 toneladas de polvo atomizado.

Nuestras plantas trituran 190.000 kg de azulejo descartado para la producción, que se integran después del reciclado en la fórmula de nuevos productos, con lo que se evita la contaminación y las emisiones de CO2.

Reconducimos el aire caliente de los hornos cerámicos, en definitiva, es nuestro compromiso con el medio ambiente y nuestras chimeneas solo emiten vapor de agua.

The group invests heavily in its commitment to the environment. We recover 2,700,000 liters of water daily, with zero discharge of ceramic wastewater and 7,500 tons of atomized dust.

Our plants grind 190,000 kg of tile discarded for production, which are integrated after recycling into the formula of new products, thus avoiding pollution and CO2 emissions.

We redirected the hot air from the ceramic furnaces, in short, it is our commitment to the environment and our fireplaces only emit steam.

Desarrollo sostenible
Sustainable development

TAU cerámica cuenta con un sistema de gestión ambiental para identificar y minimizar el impacto de sus operaciones sobre las emisiones atmosféricas, aguas residuales, residuos y contaminación acústica. Sistema Integrado de Gestión (SIG), diseñado por Ecoembes y encaminado a la recogida selectiva y recuperación de residuos de envases para su tratado, reciclado y valoración.

La compañía cuenta con Declaraciones Ambientales de Producto (DAP) para todas las familias de producto que comercializa. Una declaración concedida por Aenor en 2014 y ampliada en 2015 que destaca productos respetuosos con el medio amibente.

TAU ceramics has an environmental management system to identify and minimize the impact of its operations on air emissions, wastewater, waste and noise pollution. Integrated Management System (SIG), designed by Ecoembes and aimed at the selective collection and recovery of packaging waste for treatment, recycling and assessment.

The company has Environmental Product Declarations (EPDs) for all the product families it markets. A declaration granted by Aenor in 2014 and extended in 2015 that highlights environmentally friendly products.
